Galvaniklieferscheine

... und vieles mehr ...

The screenshot displays a complex software interface for PPS (Production Planning and Control) management. It features several overlapping windows and panels:

- Top Left:** A window titled 'Syndrate' showing a list of orders with columns for date, amount, and status.
- Top Center:** A 'Zustandsübersicht' (Status Overview) window with a grid of colored cells representing different order statuses.
- Top Right:** A 'Lager' (Inventory) window showing a table with columns for 'Artikel-Nr.', 'Lagerart', 'Menge', and 'Datum'.
- Middle Left:** A 'Bestellung' (Order) window with a tree view of order details and a 'Netto' value of 0,00 €.
- Middle Center:** A 'Kalkulation' (Calculation) window showing detailed cost breakdowns for materials and labor.
- Middle Right:** A 'Volumenrechnung (Fläche)' (Volume Calculation) window with a 3D diagram of a cylindrical part and associated dimensions.
- Bottom Left:** A 'Materialverfolgung' (Material Tracking) window showing a list of materials with their respective dates and quantities.
- Bottom Center:** A 'Material-/Lagerbestand' (Material/Inventory) window showing details for a specific material (Cu50%Ni Draht Rd.3,7).
- Bottom Right:** A 'Gantt' or 'Timeline' window showing a grid of dates and times, likely representing production or delivery schedules.
